

INTERSTATE-McBEE

AUGUST 2015

REPLACEMENT

**Electronic Fuel Injectors
& Components For:**

Detroit Diesel® – Series 60
Cummins® Celect® – N14 & M11
Caterpillar® – HEUI & EUI
Navistar® – HEUI

21	A-23506551	SCREW W/LOCK WASHER	8

R-23537686 was superseded by R-23517845

Note: An improved fuel pump replaced the former fuel pump, effective with July 1995 engine production. The improved and former pumps are similar, except that the improved pump has a one-piece drive shaft and hub assembly. The former pump has a separate drive shaft and drive hub. Former and improved pump assemblies are completely interchangeable. However, components of former and improved pump assemblies are not interchangeable.

The current fuel pump system consists of the following components:

- Barnes positive displacement type fuel pump with one-piece drive shaft and hub assembly
- Gear train mounting adaptor
