**Serving the Diesel and
Natural Gas Industry
for over 65 years.**

"Quality without Compromise"

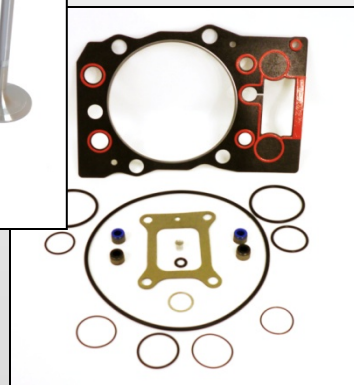

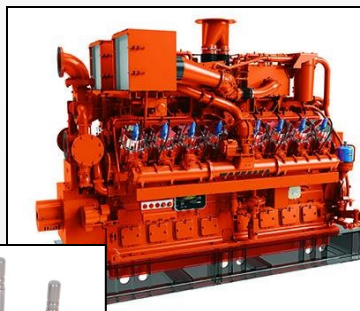

Gasket Sets and Components for Waukesha® Engine Application

Interstate-McBee continues to expand coverage for natural gas engine applications. We carry Waukesha® VHP, VHP 7044, and VGF Natural Gas engine components and gasket sets. These popular engines are most commonly used for industrial and power generation applications usually associated with the oil and gas industries.

Features and Benefits:

- Valves are engineered from a high nickel chrome alloy for superior heat resistance.
- Valve Stems are chrome plated for increased wear resistance.
- Valve Seats are produced from a high temperature alloy for greater wear and corrosion resistance.
- Rocker Cover and Intake Manifold Gaskets are steel reinforced for improved durability.
- High temperature Viton rubber seals are included in all required gasket sets for corrosion resistance and longer life.
- Exhaust Manifold Gaskets is copper flashed and features high temperature reinforced seals for additional durability and sealing.

Additional Waukesha® items available from Interstate-McBee
