### OCTOBER 2020

## DETROIT DIESEL®

### S60® - Engine Kits

Interstate-McBee is now assembling engine kits for late model Series 60® 14L DDEC V EPA07, adding to our ever expanding coverage for this popular engine application. These new engine kits include the components needed to overhaul the engine in chassis. These are also available with a major overhaul gasket set. The new **A-23534898 piston** found in the **A-23536685CA cylinder kit** features one-piece steel forging for superior strength. Graphite coating on the skirt helps minimize friction. The cylinder liner is induction hardened for decreased bore wear. The flange is roll burnished for strength. Contact Interstate-McBee for additional information.

Part Number	Description
A-23536685CA	Kit - Cylinder
A-MCIF23536685QCA	Kit - Inframe
A-MCOH23536685QCA	Kit - Engine Overhaul

### DD15 - Additional Items

Check out our additional coverage of items for the DD15 engine platform. New items are arriving regularly so check back with Interstate-McBee for details. Some of the new items now available from stock are listed below:

Part Number	Description
A-A4721800965	Core - Oil Cooler - 15 Plate
A-A0169970646	Seal - Crankshaft - Front
A-A0159974946	Seal - Crankshaft - Rear
A-A4720530420	Spring - Valve - Intake
A-A4720530520	Spring - Valve - Exhaust
MCB1934	Insert - Valve - Intake
MCB1856	Insert - Valve - Exhaust
A-A4721421880	Gasket - Exhaust
A-A4721421980	Gasket - Exhaust
A-A4730960280	Gasket - Turbo
A-A4720980180	Seal - Air Pipe
A-A4710780380	Seal - Fuel Pump
A-A4721422080	Gasket - EGR
A-A0019950402	Clamp - Pipe - Exhaust

NEW PRODUCT RELEASE

### OCTOBER 2020

## CUMMINS®

### ISX/QSX Rocker Lever Repair Kit

Interstate-McBee has been helping you compete by offering rocker lever wear parts for ISX / QXS engines. There have been many design variations used over the years for this engine series with the primary difference being the width of the roller (See IMCB TPG Flyer #58). The rollers have progressed from a 14mm roller to 17mm rollers found in later model rocker levers. Released in May 2018, the latest style levers utilize a hollow steel axel pin. The new **M-4386550PR repair kit** is now available from Interstate-McBee for servicing this series of rocker levers. The new steel axel pin features DLC coating for wear resistance and a hardened and tempered bearing steel roller for durability.

## CUMMINS®

### ISX/QSX Idler Gear Bushing

Also available for servicing the idler gears found in ISX / QXS engines is the new **M-3680201 bushing**. This new replacement bushing can be found in the idler gears of the popular ISX and QXS engine. This new bushing helps save expensive gear assembly replacement costs. The new bushing features a tri-metal alloy construction for durability. Contact Interstate-McBee for details.

## CUMMINS®

### ISX/QSX Electric Lift Pumps

New electric lift pumps are now available in stock for popular engine applications. These pumps consist of a fuel transfer pump and the mounting support.

Part Number	Description	Application
M-4935005	Pump - Fuel	Mid-Range Engines
M-4935092	Pump - Fuel	ISX / QXS Engines
M-4935094	Pump - Fuel	ISX / QXS Engines

## CUMMINS®

### ISC/ISL Tappet Assembly

New **fuel pump tappet roller assemblies (M-4921732)** are now available for Mid-Range ISC and ISL HPCR pumps. These new tappet assemblies feature hardened and tempered axel pin and rollers for durability. Contact Interstate-McBee for details.
