

HDXperts A/S

Heavy Duty Gas & Diesel Engine Xperts

HDX wants to thank all those that visit us at the DanFish –Aalborg and Maritime Fair - Copenhagen exhibitions week 41.

We appreciate everyone's interest for the engine parts displayed at our booths and services we offer to our customers. Items like the Baldwin Filters, Alternator, Injectors and Turbo-Cartridge were frequently subject to closer inspections and questions. Great interest was in the Cat® 3500 series cylinder head we had in our booths, and the Cat® C-series and Cummins® QSB, QSC, QSL, QSX and QSK - Steel Pistons, and not to forget the newly released from Interstate-McBee, Cat® C18 and C32 Steel Cylinder Liner. We also want to thank for all the positive and encouraging comments we received from our valuable customers that stopped by.

We look forward to establish fruitful and trustworthy relationship with all new contacts we met, and we are eager to explain the possibilities and options what the high quality engine parts from Interstate-McBee can bring to their businesses.

In order to see few pictures of our booths, please click on "New HDX Newsletter" to the left.
