

Kolding, Denmark - December 2012

Dear Sirs and Madams,

As communicated already at end of last year, we established and started HDXperts A/S one year ago with the goal to provide the best and most professional service to engine owners and other professionals in the gas- and diesel- engine rebuilding industry, both in supplying the highest quality Engine Spare Parts available, Technical Support and Engine Rebuilding.

For the past couple of decades, we the undersigned of this letter have been well known and highly recognized in the industry for our technical expertise and support in helping many hundreds of engine owners and rebuilders in Europe, Middle-East, Asia and Africa when rebuilding their Caterpillar® and Cummins® engines with high quality aftermarket and genuine spare parts.

So it is with great pleasure that we want to announce that HDXperts has signed on an agreement with the American Spare Parts Manufacturer Interstate-McBee to become their stocking distributor for their products in Europe. The first stock order shipment will be in Denmark around middle of December month. For more than sixty years, Interstate-McBee has been one of the world leading manufacturers of spare parts for American made diesel and gas engines.

At the same time, we also have an agreement with the American company Maxiforce regarding stocking the most common and popular parts for engine models covered in their parts program, parts that are not supplied by Interstate-McBee.

It is our aim in 2013 or soonest possible to build up inventory to cover all basic parts required to carry out in- and out-of-frame type overhauls for most of the engine applications listed on attached reference sheet.

We look forward to offer and supply the complete range of high quality spare parts from Interstate-McBee and Maxiforce, and both companies are very determined in supporting and servicing the European market with their quality products. Where we are not able to offer high quality aftermarket parts, we will continue to offer as supplement to our customers genuine CAT® and Cummins® engine parts.

On the logistics side, we have an agreement with TNT with very competitive freight charges on their Global Express and Express-Economy-Road services from Denmark to most destinations throughout Europe.

Please do not hesitate to contact us with any questions, suggestions or comments you might have, or if you need any additional information. We look forward to receive your enquiries and would appreciate your continued business and support.

Sincerely,
HDXperts A/S

Geiri Skirnisson
General Manager

Bjarne Soerensen
