## New Product Release – August 2013

### Caterpillar® G3520B Engines

Interstate-McBee continues to add custom gasket sets for popular Caterpillar applications. We are pleased to announce major overhaul, multiple head replacement and in frame overhaul custom gasket sets for G3520B engine applications. These new kits make it convenient to order gaskets and seals when overhauling these engines. The Interstate-McBee style gasket sets feature U.S. made cylinder head gaskets and Teflon® coated water and oil directors. See reference serial numbers below.

#### Engine Serial Number Reference

G3520B	Generator Set Engine	BGW1-Up
G3520B	Generator Set	CWD1-Up
G3520B	Generator Set	GZP1-Up
G3520B	Industrial Engine	GET1-Up
G3520B	Industrial Engine	GLF1-Up
G3520B	Petroleum Engine	TPC1-Up

#### Interstate-McBee Part Number

MCB3520011	Major Overhaul Gasket Set
MCB3520012	Inframe Overhaul Gasket Set
MCB3520013	Multiple Head Replacement Set

### Caterpillar® D3512C Engines

A multiple head replacement set, part number MCB3512063 is now available for D3512C applications. See reference serial numbers below.

3512C	Petroleum Engine	LLA1-Up
3512C	Petroleum Engine	LLB1-Up
3512C	Petroleum Engine	LLF1-Up
3512C	Petroleum Engine	R1A1-Up
3512C	Petroleum Engine	R1S1-Up

## New Product Release – August 2013

### Caterpillar® G3516, G3520C and G3520E Engines

M-2289673 valve stem seal is now available for G3516, G3520C/E landfill applications. These valve stem seals are found on the intake valves or on intake and exhaust valves depending on applications. Contact Interstate-McBee for details and exact applications.

New Cylinder Head #	Reman Cylinder Head #	Comments
2474572	0R7734	Landfill (Quiescent)
2474573	0R7739	Landfill (Low Swirl)
3152633	10R7928	Landfill (G3500 C/E)

### Caterpillar® 3406E, C15, C16, C18, 3456 Engines

M-2431159 and M-2401614 are now in stock for the popular engine applications listed above. M-2431159 fastener group is used in conjunction with M-2429537 rocker cover seal. This new fastener group incorporates a new bolt and seal along with a torque limiter sleeve to prevent over torquing the rocker cover. The M-2401614 seal-fastener assembly is for use with the M-1685248 oil pan isolation seal. The M-2401614 is the latest design and can be used with bolts or studs.

M-3487743 bridge-valves are now available from Interstate-McBee. The original equipment manufacturer recommends replacement of these floating bridges when the cylinder head is rebuilt. Contact Interstate-McBee for details and exact applications.

## New Product Release – August 2013

### Caterpillar® C15 Engines

New piston crown part number M-2250115 is now available for servicing C15 engines with MBN serial numbers. The new crown is available in cylinder kits as well as with inframe kit listed below.

CK2250115P	Cylinder kit
MCIF2250115-C15	Inframe overhaul kit

### Caterpillar® C12 / C13 Engines

MCBC12ESK exhaust manifold stud kit is now available for popular C12 and C13 engines with standard exhaust manifolds. The new kits include high-strength studs with new spacers and corrosion resistant high-temperature lock nuts. Contact Interstate-McBee for exact applications.

## New Product Release – August 2013

### Cummins® ISX Engine Applications

The M-4059429 drilled connecting rods for ISX/QSX engine models are now available at Interstate-McBee. The drilled rod must be used with one-piece steel pistons. Earlier engines with two-piece articulated pistons can be updated to the improved one-piece steel piston design with six of these rods and one engine kit. Call Interstate-McBee for engine kit selection.

### Cummins® ISB, ISC, ISL Engines

New M-3932430 noise isolators are now available for mounting the oil pan on popular Cummins midrange engine applications. These new isolators come fully assembled with the mounting bolt and rubber isolator. Contact Interstate-McBee for exact applications.

### Detroit Diesel® Series 60® 14L Engines

23536348M turbocharger is now available for Series 60 14L engine applications. This new turbocharger includes a new waste gate actuator assembly and contains the oil inlet and outlet gaskets and the mounting gasket. Contact Interstate-McBee for exact applications.
