New Product Release – July 2014

Cummins® engine Natural Gas Gasket Sets coverage

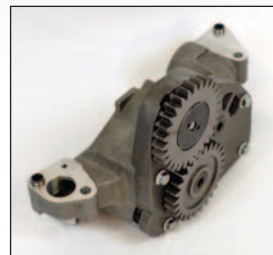

Interstate-McBee has added three additional Upper Gasket Sets to our line of alternative fueled engine coverage. Two OE style sets **M-4089888** & **M-4955785** enable cost effective Cylinder Head replacement of the L-Gas and ISL G Gaseous Fueled 8.9L Cummins® engines. These quality sets which contain the premium Head Gasket M-3969609 are now available. Customers may choose the convenience of the custom Interstate-McBee Upper Gasket Set, **MCB4955785** which can be used on both applications listed above, giving them the ability to save time and stock space.
