## New Product Release – February 2011 Parts for Cummins® Application

- MCB4025162** Cylinder Kit M11
- M-4025297** In frame Engine Kit

### Expanded Cummins® M11 Engine Coverage from Interstate-McBee

We are pleased to announce immediate availability on the M11 cylinder kit listed above. This kit contains a forged steel piston crown and aluminum skirt. These cylinder kits are available separately or conveniently packaged in our in-chassis engine kit part number **M-4025297** which contains rod bearings, main bearings, both styles of thrust washers, upper gasket set, oil tube seal and oil pan gasket. For complete unit overhaul, add lower gasket set M-4089998 which is also in stock at Interstate-McBee. See Technical Parts Gram # 53 for specific design details.

### **M-3945866** Tappet, Camshaft

#### Cummins 8.3L C and ISC Series Engine Applications

Chill cast iron tappets are now immediately available for Cummins ISC and QSC.

The new M-3945866 tappet has a larger contact area for additional load carrying required on later engine designs. Please contact the parts professionals at Interstate-McBee for exact applications.

- 7991093** Plunger and Barrel, Female Cummins CELECT L10
- M-3411711** Plunger and Barrel, Male Cummins CELECT M11, N14

Now available, male and female Cummins CELECT P&Bs for popular L10, M11, N14 applications. The plungers are coated to ensure longer life. Interstate-McBee's exclusive manufacturing processes produce precise timing between the plunger and barrel. Proper timing means faster, easier rebuilding and testing while enabling your injectors to achieve maximum performance.

Contact us for your additional replacement parts for Cummins CELECT injectors.

## New Product Release – February 2011 Parts for Navistar® Application

### **M-188598C91 Cylinder Head Gasket Set**

**New Upper Set for Navistar® 466E / 570E MY2004  
from Interstate-McBee**

The set above is used on the 466E & 570E model year 2004 Navistar® engines which utilize a four valve per cylinder type cylinder head in conjunction with an EGR system. The M-188598C91 includes the injector seal rings and nose gaskets as well as the parts necessary for the high pressure oil lines and turbocharger mounting. Look for more additions coming soon for this popular medium duty engine range here at Interstate-McBee. Listed for reference to the right are the other modular sets already available for this engine platform.

**M-1842624C92** Injector Installation Kit – This kit contains the upper injector body and lower injector body seal ring as well as the injector nose gasket for the HEUI phase two fuel system.

**M-1842626C95** High Pressure Oil Rail Seal Kit – This kit contains the o-ring seals and all three sizes of backup ring seals for proper oil rail installation. The contents of this kit are one use only items and need to be replaced anytime the high pressure oil rail is removed.

**M-1842623C93** Turbocharger Mounting Kit – This kit contains the o-ring seals, four stud nuts and the turbo mounting gasket for complete unit replacement.

## New Product Release – February 2011 Parts for Detroit Diesel® and Caterpillar® Application

**A-23520148 Exhaust Valve Kit S60/S50 Natural Gas**

**A-23520149 Intake Valve Kit S60/S50 Natural Gas**

### Additional Detroit Diesel® S60G/S50G Coverage

Interstate-McBee is pleased to offer immediate availability on the above valve kits. Each of these kits includes one 20 degree valve, two locks, one valve stem seal and one rotator. Both valves are constructed of a high temperature alloy to provide a long life span in these high heat applications. The S50G has wide usage in many metropolitan transit systems. Look to Interstate-McBee for expanded natural gas coverage in the months ahead.

**M-3087100 Insert, Valve Seat Std.**

### Expanded Coverage for Caterpillar G3520 Engine Applications

USA manufactured from high temperature and corrosion resistant material, M-3087100 valve seat inserts are in stock for immediate delivery. These water cooled seats can be found in G3520B and G3520C units. Please contact the parts professionals at Interstate-McBee for exact applications.

**M-1330125 Core Assembly, Oil Cooler**

### New Oil Cooler Core for 3406E / C15 Engine Applications

New oil cooler core assemblies are now available for 3406E and C15 Engine applications. Please contact the parts professionals at Interstate-McBee for exact applications.
